

November 1, 2021

Greetings Community Partner,

At Liberty Arts Academy, we are actively seeking community members and businesses to partner with to create opportunities and experiences for students, families, and staff. Through our community outreach and relationships, our school was recently named the Best of the Best Public Charter School and Pre School Program according to the East Valley Tribune and recently the proud recipient of a KaBOOM! Playground and NFL Play 60 grant. As we continue to make a difference in the lives of our students, families, and community, we are reaching out to our business partners to develop long-lasting relationships that will have a significant impact on the academic, emotional, and social growth and achievement of our school.

This year, we are seeking donations for this year's Polar Fest Event and Raffle. Any type of donation will be placed either for a raffle or silent auction to raise funds for students at Liberty Arts Academy which include field trips, transportation, technology, and end of the quarter celebration prizes.

Our school is a Pre-School thru 8th Grade School that focuses on Play & Family (Finland Strategies), whole child strategies such as 8 specials/electives a week for all students, movement / exercise / flexible seating, and a Blended Learning environment that meets the needs of individual students. Currently, we have an enrollment of 330 students. As a school, we have the mindset and dedication to our students that every child deserves a safe, innovate, creative, and exciting learning environment that develops a Love for Learning each and every day!

Thank you so much for your consideration and support for our Polar Fest Event. I look forward to hearing from you at your earliest convenience. I appreciate all of your support for our school and the Liberty Arts Academy community. If you have any questions, I would be more than happy to set up a meeting or provide a tour of our school at any time.

Sincerely,

Brady Wald
